

Assignment - 9

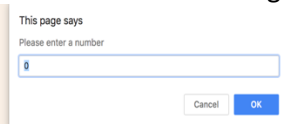

HTML, CSS and JavaScript

1. Create a web page that would display the following message:

Play the Game

When we click on the text, we should see the following dialog box:

Play the Game

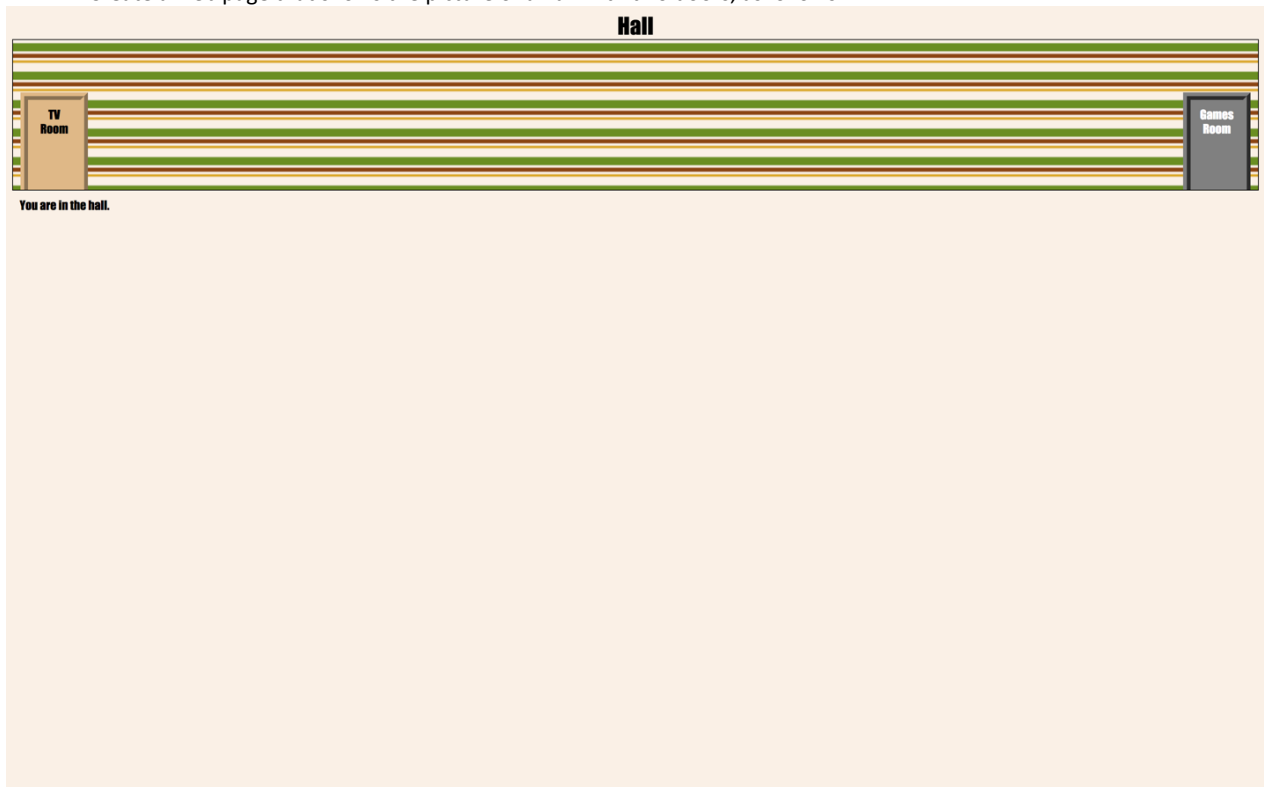

When we provide an input to the dialog box (10, for instance), we should see the following output:

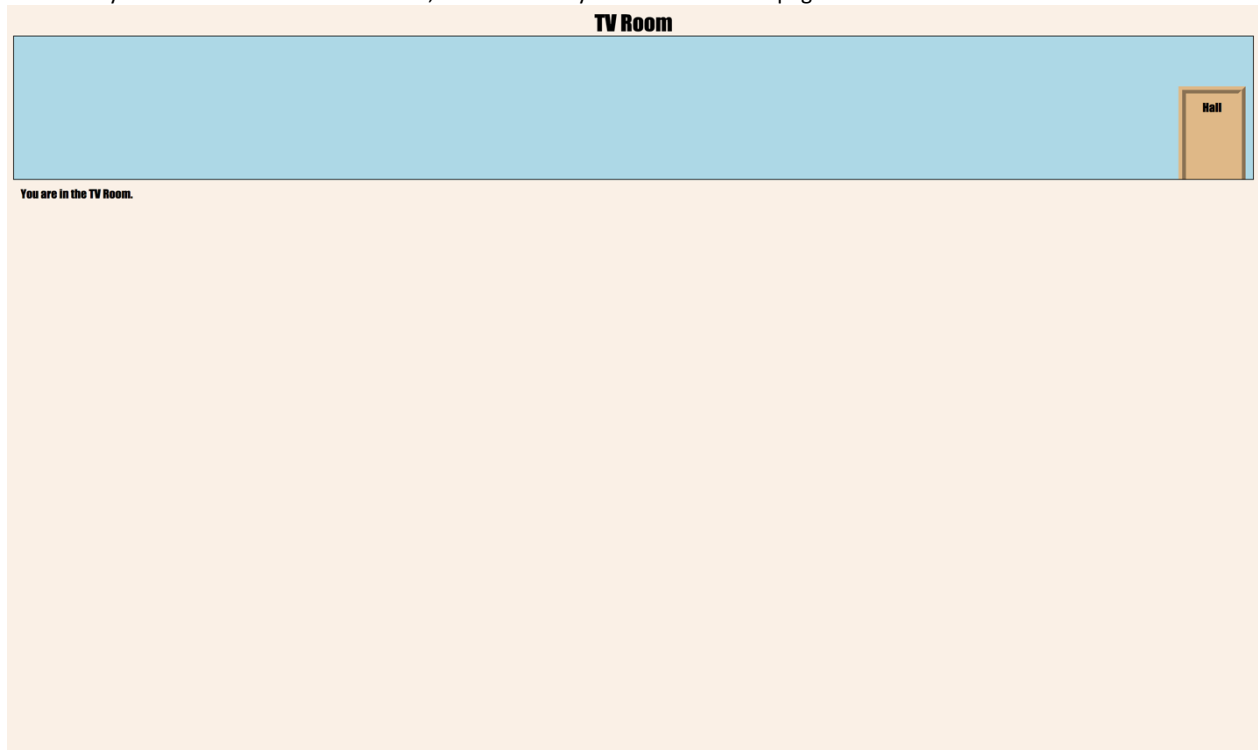

Below are the factorials of all the numbers from 1 to 10

1
2
6
24
120
720
5040
40320
362880
3628800

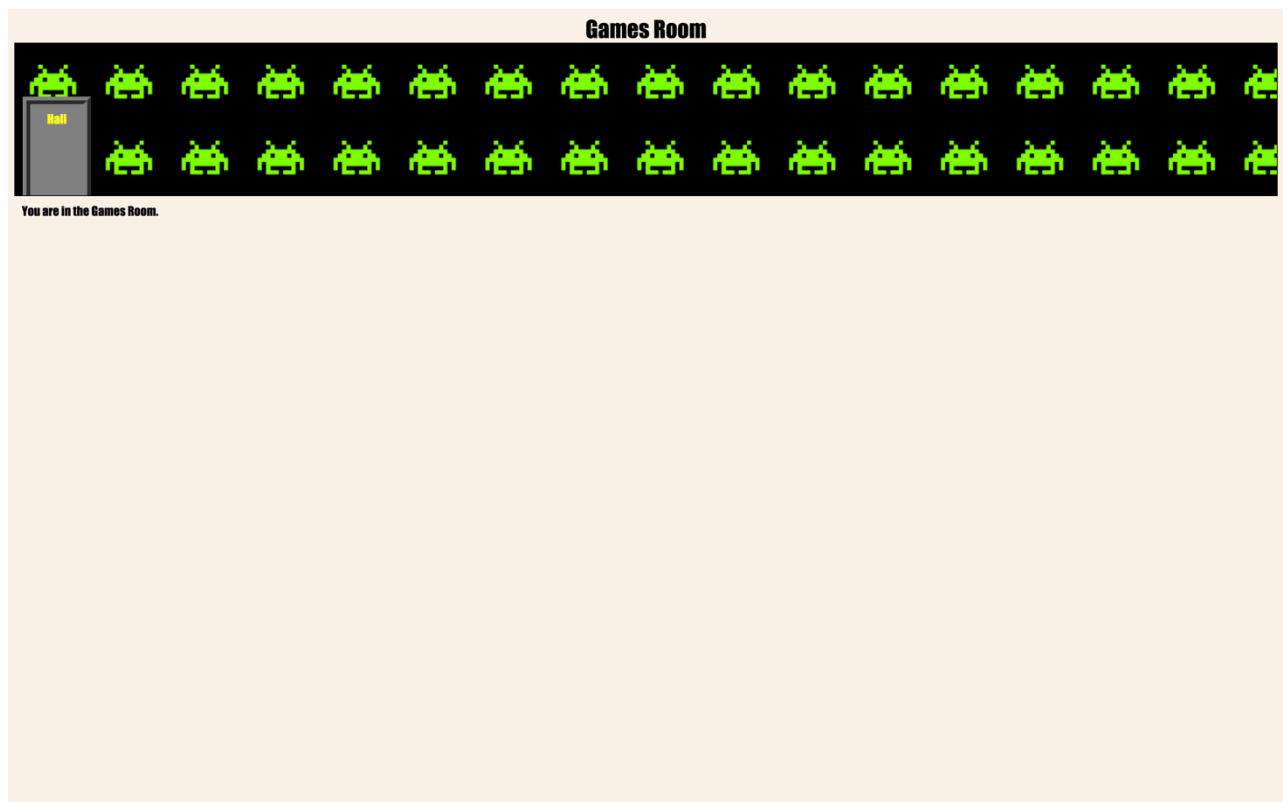

2. Create a web page that shows the picture of a hall with two doors, as follows:

If you click on the door “**TV Room**”, it should take you to the TV Room page which looks like this:

If you click on “**Games Room**”, it should take you to the following web page:

From both the rooms, if you click on the door labeled “Hall”, you should go back to the starting web page of the hall.

Note: *Include the images in your work folder that you create for submission.*
